Your challenges our solutions

A complete
Solution Provider
in the field of IoT

From Creation to Production Process

Our Expertise
is covering fields
of IoT, Medical
and Production

IoT World

L-Tek IoT's vision is to design, develop and produce a range of cost-effective SMART IoT solutions which are based on Industry 4.0. Universal concept of L-Tek IoT platform allows us to plan, implement and optimize your solution thus enabling short time-to-market!

L-Tek is an expert in the IoT arena by using its own developed IoT platform to measure, monitor, control and analyse the requested conditions for a complete IoT eco-system.

L-Tek is developing different SMART IoT solutions in many segments of the industry:

- Home Automation
- Production
- Agriculture
- Sport
- Energetics
- and more ...

**We design,
create and
produce unique
IoT solutions!**

Medical Solutions

L-Tek has competencies and abilities with an engineering team to continuously develop new or improve the existing products and produce all the medical solutions at its own production location.

L-Tek designs and produces medical products under medical ISO 13485:2016 standard.

From Creation to Production - at one place!

L-Tek provides a complete process from designing, development and Electronics manufacturing services (EMS), programming, testing and packing to dispatch.

1.

**DESIGN &
DEVELOPMENT**

2.

**RAPID
PROTOTYPING**

3.
